

First aid

In case of injury, determine the extent of the injury:

- **Minor injury** - Deal with the damage yourself as you would at home. There is an emergency kit in the information centre.

- **Major damage** - A defibrillator at the entrance to the information centre
- Get an overview of the incident site
- Do not expose yourself to danger
- Secure the scene and the injured
- Call for help **ring 112**
- Give life-saving first aid
- Send a message to the information centre
- Send someone to the driveway to direct help
- Wait for help
